The bike that changed everything

After 5 consecutive titles in the World Grand Prix Road Racing Series, Honda decided to withdraw and turn toward its primary target: transfer the technology obtained in competition to develop high-performance consumer machines. After a first attempt with a 450cc, Honda released the CB750 Four in January 1969. The initial production forecast of 1,500 units a year became soon a monthly figure and then jumped to 3,000 units/month. By pushing the boundaries of performance, reliability and easy handling in motorcycles, Honda created a new class of Superbikes. The CB1000R is the modern expression of the same spirit that guides Honda engineers since decades.

The Dream CB750 FOUR, which hit the market in July 1969

LUGGAGE

Rear Seat Bag / Rear Seat Bag attachment kit

08L73-MKJ-D00 / 08L70-MKJ-D00

A simple and functional rear seat bag specifically adapted to the tapered shape of the rear seat. Easy and stable mounting when installed with the attachment kit (sold separately):

- 15L Capacity that can be expanded to 22L
- Rain cover included
- Dimensions in mm (W x L x H): 355 x 365 x 243

€ 102.00 / € 9.00

Tank bag kit / Tank bag attachment kit

08L71-MKJ-D00 / 08L72-MKJ-D00

A simple and functional tank bag adapted to the tank of the CB1000R. Clear pocket on top of the bag for easy smart phone storage. Attachment sold separately to provide a stable mounting that does not disturb the handling of the machine:

- 3L capacity
- Rain cover included
- Dimensions in mm (W x L x H): 178 x 285 x 130

€ 69.00 / € 12.00

COMFORT

Grip heater kit*

08T70-MKJ-D00

Thin and fully integrated with the other command, this set of heated grips are controlled through a 5-position switch on the left hand side.

€ 368.00

Main Seat (Alcantara) / Pillion Seat (Alcantara)

08F76-MKJ-D00 / 08F77-MKJ-D00

Both main seat and passenger seat are made of luxurious Alcantara material to provide an extra level of comfort and seating stability during traveling.

€ 379.00 each

12V Socket

08U72-MKJ-D00

Socket installed next to the meter for easy access.

€ 84.00

PERFORMANCE & LOOK

Quick Shifter*
08U70-MKJ-D00

By measuring the intensity of the shifting input, the quick shifter enables the rider to change gear without the need to operate the clutch lever or shut the throttle. The system aids upshifting and downshifting, maximizing the riding experience.
€ 715.00

Front Fender Panel Kit*
08F79-MKJ-D00

High quality aluminium panel to add to the front fender of the CB1000R.
€ 212.00

Meter Visor*
08R72-MKJ-D00

Meter visor fitted with a high quality aluminium panel to enhance the iconic look of the CB1000R.
€ 234.00

Single Seat Cowl*
08F80-MKJ-D002C

Seat cowl matching the colour of the bike, fitted with a high quality aluminium panel.
To be installed instead of the passenger seat.
3 colours available:
• Candy Chromosphere Red (08F80-MKJ-D00ZA)
• Mat Bullet Silver (08F80-MKJ-D00ZB)
• Graphite Black (08F80-MKJ-D00ZC)
€ 268.00

Rear Fender Panel*
08F78-MKJ-D00

High quality aluminium panel that will underline the shape of hugger for a total Neo Retro look.
€ 196.00

Wheel Stripe Kit
08F74-MKJ-D00ZA

Easy to apply wheel decal kit.
Silver colour-accented vinyl stripes featuring the CB1000 logo.
€ 79.00

Titanium Slip-On muffler
08F88-MKJ-900

This beautifully crafted muffler is constructed from race-proven materials using lightweight titanium and finished with a hand-made carbon-fibre end cap and heatshield. Providing that unique Akrapovič sound this exhaust reduces weight by over 54% from the stock system, leading to improved handling and manoeuvrability. It has a simple plug-and-play installation, and is fully EC- and ECE-compliant.
Improvements:
• Power: + 4.1kW at 7.500 rpm (+5.5 hp)
• Torque: + 5.5 Nm at 7.000 rpm
• Weight: - 2.3 kgs
€ 999.00

(*) Accessories applied as standard on the CB1000R+

PROTECTION

Tank pad

08P61-KAZ-800A

3-piece adhesive-backed tank pad in a carbon fibre effect, featuring the Honda Wing. Helps to protect tank paintwork from scratches and rubbing.

€ 17.00

Crankcase Ring Kit

08F75-MKJ-D00

Nylon crankcase left ring with adhesive backing for easy instalment.

€ 46.00

Indoor Body cover

08P70-MKJ-D00

Black and grey indoor body cover specifically designed for the CB1000R. The body cover is made of durable polyester material to avoid scratches and dust while storing your bike.

€ 118.00

CB1100 EX "Hedo": a CB fully dressed up for the Custom scene

In 2017, Honda stirred a massive interest from custom fans with this project made in collaboration with Milan-based customizers South Garage. The matt-black tank, blacked-out engine, clutch covers, and wheels provide the overall mood of this dark mixture of café racer and bobber styles. Low-slung clip-on bars, radial master cylinder, and short tail section give it the café racer edge. Touches like miniature LED indicators, new headlight and diamond-patterned leather seat matching the tyre tread give an elegance that keeps vivid the original appeal of the CB1100 EX.

*Do you really need a left
lever to enjoy riding?*

The Dual Clutch Transmission made its worldwide debuts for motorbikes in 2010 with the Honda VFR 1200. Now entering its 3rd generation and downsized to suit mid-displacement bikes, the DCT is completely different from the belt-type transmissions used by most scooters: it is structurally a conventional 6-speed gear ratio transmission, yet electronically controlled when changing speeds. Keep the fun of a manual transmission; enjoy the comfort of an automatic one!

LUGGAGE

48L Top Box with Back Rest
08L48-MKA-RTB

48L Top Box with backrest, delivered with every components needed for mounting (plate, rear carrier) or to lock it with using the bike key.

4-1 Exhaust

*Where these beautiful curves
are coming from?*

One of the most distinctive attributes of the CB650F is its swooping four-into-one exhaust system. This beautiful design is a tribute to another iconic Honda: the CB400F also known as the CB 400 Four. Produced between 1975 and 1977, the CB 400 Four caused quite a stir thanks to its café racer look. Producing only 37 bhp (28 kW) at 8,500 rpm and 24 lb-ft (33 N-m) at 7,500 rpm, its four-in-line engine was not meant to take the racetracks by storm. Yet, back in the late 70's, some versions upgraded to 492cc were capable of 13,500 rpm and producing an estimated 60 bhp (45 kW).

LUGGAGE

35L Top Box

From one Rebel to another?

Since 2013, The Bike Shed London is a motorcycle exhibition like no other celebrating the creative culture around the custom bike scene. It is there that Keita Mikura, the Rebel's Project Leader, was inspired to create a new kind of machine for young riders, leaving free space for further customization. In 2017, the Rebel concept became reality and reached another level, thanks to the vision and the craftsmanship of 2 Brits: Dan Gold, a tattoo artist and Russ Brown, a custom bike builder.

*Is reliability supposed
to be boring?*

It's not rare to find CB500 proudly boasting more than 300,000 kms (more than 186,000 miles), but the long-time favourite of the couriers and the driving school is much more than a workhorse. Started in France in 1996, the CB500 Cup spread across Europe quickly and helped young talents such as Sebastien Charpentier or James Toseland to make a name by themselves, on a budget.

LUGGAGE

DREAMS REALLY DO COME TRUE

Soichiro Honda said,
'We only have one future, and it will be made of
our dreams, if we have the courage to challenge
convention.'

Honda's philosophy in dreaming of a better world for
people catalysed the invention of the ASIMO, HondaJet,
NSX and the legendary Africa Twin. Dreams can be
powerful, they push you to achieve more, to explore
new ideas, new technologies and uncover
new ways of solving problems.

It takes independent thinking and audacity to pursue
dreams. It also takes passion and innovation to never
allow the dream
to die and to shape them into a reality for the
modern day world.

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please contact your local dealer for information and specifications. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors. You accept that if you do go ahead and make a purchase or enter into any kind of transaction, whether for payment or not, you did so entirely in reliance on your own skill and judgement and not on that of anyone else.

RIDE WITH STYLE Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Always wear a helmet and quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.
